

**TMC (Truck Mounted Crane) Competency Course**

This Truck Mounted Crane course is **NON** unit standard based. It's designed as a competency course. This course is made up of both training and assessment.

Maximum numbers per course are 6 people and takes approximately 7-8 hours.

**Course**

Competency Course

Theory and Practical Assessment

**Theory:**

- This covers H & S and hazards in the workplace, and how to manage those hazards.
- Parts of the Truck Mounted Crane and what they do
- Safe working practices and site set up
- How to read load charts so you don't overload the Truck Mounted Crane
- Inspection of equipment
- Understanding Load charts

**Practical:**

- Vehicle and crane pre-check
- Setting up the TMC (Truck Mounted Crane) individually
- Unfold arms ready for use
- The student is required to complete two lifts with different lifting equipment and loads
- Each student will then fold the crane away ready for transport
- This will be done twice by each student as if on a working site. (two complete operations)

It is recommended that this course is completed every 3 years to show competency and safe work practices are kept up

**Course Pre-requisites**

- No Pre – requisites for course entry open to novice and experienced though it's expected that you read through the pre course material and bring to course with you.
- Pre-booking prior to attending your course

**Upon Successful completion**

	On completion of the theory and practical components, the student will be issued with a certificate and I.D card. Unit Standards will not be issued
